Full-time

 IDRMS Technologies Pvt. Ltd.  Bengaluru, Karnataka, India  Dec 2024 - Present

Software Engineer(Salesforce Developer)

Full-time

 The Coding Studio  Surat, Gujarat, India  July 2023 - December 2024

As a seasoned Salesforce professional, I consistently applied best practices to streamline processes, deliver customized client solutions, and foster innovation within my team.

### Custom Application Development

- Developed and customized Salesforce applications by creating and configuring custom objects, optimizing data relationships, and implementing business logic using Apex and SOQL.
- Designed Flows, Triggers, and Apex classes for efficient data retrieval and manipulation.
- Managed data access through sharing settings, profiles, and field permissions, ensuring secure and streamlined operations.

### User Interface Development

- Built responsive user interfaces using Lightning Web Components (LWC), enhancing user engagement and experience.
- Successfully deployed solutions on Experience Cloud, customized themes for optimal presentation, and managed guest user permissions through custom domains.
- Developed custom LWC components, integrated APIs, and managed profiles and permission sets to ensure data security and compliance.

### Integration and Security Implementation

- Implemented secure API integrations using Remote Site Settings, Metadata Types, and Named Credentials.
- Configured sharing settings, profiles, permission sets, and field permissions for precise data access control.
- Leveraged Experience Cloud to deliver personalized and secure user experiences, enhancing client satisfaction and operational efficiency.
